Featured Disk

DD79abcd: Amiga C Tutorial - This is the most comprehensive C language, Amiga oriented set of tutorials available. Includes full working examples, source code and an incredible set of lessons. Included are full discussions and examples of every topic on Amiga programming. Four disk set, counts as three.

New Disks

FD66: GameTease2 - Contains playable demos of ChuckRock & Torvak. Req. 68000

FD65: GameTease1 - Contains playable demos of Atomino and Turrican II

FD64: Games - Wizzy's Quest - a "great" 50 level game with great graphics, Cubus - a 3-dimensional Tetris type game (rotate and move in 3 dimensions). Husker Du - Colors and pattern rather than shape in this Tetris-esque game; 5 screens and 3 levels of difficulty. Requires Fat Agnus (1 Meg of Chip Memory)

FD63: Quizzsho! - an interactive multimedia quiz-game-show program that tests your knowledge of DpaintIII. The questions can be changed so you may quiz on whatever topic you'd like. 1 Meg.

FD62: Pom-Pom Gunner - An extremely smooth and well done World War II gunner simulation. Requires 1 meg of chip memory.

FD61: Games - Solitaire; great graphics, plays two versions. Kluge; an interesting piece of eye-candy. Extreme Violence; 2 player kill or be killed game. YATC; A Tetris clone with artificial intelligence. Genesis; create realistic 3-d fractal worlds.

FD60: Games - In Nebula, race over a 3-d world to destroy enemy installations. Interferon; a great Dr. Mario clone. Enigma; is it a game or a puzzle?

FD59: Potpourri - Xenon III is an almost exact clone of the commercial game of the same name...a great shoot'em up. Crossword will take lists of words & automatically generate crossword puzzles for any Epson compatible printer.

FD58: GAMES! - Includes Steinschlag; a great Tetris clone from Germany with music. SCombat: simulate battle between up to 40 players & monsters. Imperium Romanum: Battle up to 4 players for control of the Mediterranean in this Risk-esque game.

FD57: Arcade Games - Includes 2 true commercial quality games. MegaBall is the successor to Ball; features 5 full musical scores, multiple levels and addicting gameplay. Gravity Attack is a psychedelic trip through several different worlds--each distinctly different.

WB97: Molecule3D - An Interactive 3d solid modeling program for molecules; creates stunning 3D pictures of molecules. Disk also includes a mailing list manager.

WB96: Dupers - Contains XcopyIII & Nib which will backup copy-protected programs. FreeCopy removes copy protection from several programs, and SuperDuper will crank-out fast AmigaDOS copies.

WB95 - Checkbook Accountant 2.0 - This program is definitely commercial grade; we've seen many checkbook programs and this is absolutely the best. Full budgeting, transaction recording and report generation.

WB94 - Desert Storm - This disk contains an interactive hypermedia presentation about

the conflict in the Persian Gulf. Very nicely done with colorful maps/graphics.

WB92: Animation Utilities - Includes CyroUtils; utilities for splitting, combining, and creating animations from IFF picture files. Also includes two animations to view or manipulate.

WB91: AV Educational - Flags of Europe, beautifully presents all of the flags of Europe along with maps and geographic statistics of the Countries. Requires AV.

WB90: Rippers, Strippers and Beats - For the Amiga music enthusiast, this disk contains many programs designed to strip music from your favorite games and programs. Music can then be played with your favorite Pd Music program. Also contains Drums, a very nice drum machine. This disk can require moderate knowledge of the CLI.

WB89: Education - Fish, not your everyday electric eel, but a fun to experiment with simulated fish aquarium. Also contains a well done math quizzer, history, religion, geography and more.

DD80: VFont System - A font rendering system that extends the Amiga so that it will be able to use vectorized outline fonts. Fast rendering, rotating, and sizing. Use in your own programs!

DD79abcd: Amiga C Tutorial - This is the most comprehensive C language, Amiga oriented set of tutorials available. Includes full working examples, source code and an incredible set of lessons. Included are full discussions and examples of every topic on Amiga programming. Four disk set, counts as three.

FunDisks

FD5: Tactical Games - BullRun a Civil war battle game, Metro - you play the role of a city planner. Build wisely and your system will be a success, but poor planning will lead to disaster and financial ruin. Very habit forming.

FD6: GAMES! - This disk is chocked full of games including; Checkers, Clue, Jeopard - An enhanced version of Risk, RushHour - Surprisingly addicting, and SpaceWar - Best described as a cross between Combat-Tanks and asteroids.

FD7: PACMAN - This disk contains several pacman type games including; PacMan87, MazMan and Zonix.

FD9: Moria - This has great graphic controls, multiple spells, similar to Larn and Hack. Play time several weeks!

FD10: HackLite - A dungeon adventure game. Considered a must-have classic. Play time several weeks or months!

FD12A, FD12B: Star Trek, The Game - This is by far one of the best Star Trek games ever written for any computer. It features mouse control, good graphics, digitized sound effects and great gameplay. Counts as 2 disks. Req. 1Mb and two drives (or hd).

FD13: Board Games - contains multiplayer Monopoly, Dominoes, Paranoids, and others.

FD16: Strategy Games - Includes Diplomacy and Empros, both great conquer and rule multiplayer games. Also includes blackbox, hearts, and others.

FD17: Educational Games - This disk includes several games for the younger members including geography, math, science, and word games, also includes Wheel of Fortune.

FD20: Tactical Games - MechForce(3.72); A game that simulates combat between two or more giant, robot-like machines. Simple words can't begin to give you the feel of piloting a 30 - 40 foot tall, fire breathing, earth shaking colossus that obeys your every whim.

FD22: Arcade Games - This disk has MoonBase - A true classic game. The best lunar lander game we have ever seen, very challenging.

September Special!

Buy any 10 Disks and receive a complimentary Anti-Virus!

Buy any 15 Disks and also receive any 3 disks at no charge!

Orders must be received by September 31, 1991.

September Special!

FD24: Strategy Games and Others - Includes Dicey, a yahtzee type clone, MM a master mind type clone, Flipper an Othello type clone, China a great implementation of Shanghai, Circuit Wars a challenging game based on electronics, and Etrain a computer based model train set construction set for the enthusiast.

FD26: Arcade Games - Marble-slide, this is a truly commercial quality game. Similar to a Lucas game named PipeDreams, excellent playability and entertainment. Mutants, a small version of the arcade game of the same name, also SuperBreakout a Pong/Arkanoids type game.

FD27: Arcade Games - Includes, Raceorama a great ten course racing car game, MiniBlast a helicopter gunship game, and more.

FD29: Shoot'em up's - WWII - Jet plane flying mission, Spy Killer - try and penetrate enemy lines with this game.

FD32: Flight Simulator - Includes an instrument flight simulator for a DC10.

FD33: Arcade Games - Freddy a mario brothers type of game, Gerbils a target practice game, PipeLine a German interpretation of Pipe Dreams, Tron a light cycles version, and wetroids a wonderful version of asteroids with a hilarious twist.

FD34: Games - Includes WellTrix a derivative of the addictive game of tetris, and new version of BackGammon.

FD35 Omega (v 1.3) - A new dungeon and outdoors adventure game in a similar vein as Hack, Rouge, and Moria. This version is considerably faster and better than all previous versions. Play time, months.

FD37a & b: Empire - One of our best! Now with a full-featured graphic front end. Empire is a rich simulation of international politics, economics and war. Modem compatible. Counts as two disks.

FD39a & b: Tobias Star Trek - This is a new completely different version of Star Trek than that found on FD12. This one was created by the german author Tobias. Full English Doc's. Excellent!!! Counts as two disks. Requires 512k memory a 500, 2000 or Pal Amiga.

FD40: Arcade - MiddleEast - a timely arcade game of death and destruction set in Iraq, BackToTheFutureII - a very playable demo version of this soon to be released commercial game, City - a missile command clone.

FD42: Games - Includes SpaceWar3 - a remake of this original Amiga classic, Trippin - a fascinating board game of intrigue, strategy, and player-manipulation, Dominion - an engrossing strategy game of galactic war and conquest, Frog - a frogger type clone, and Mines - a very challenging strategy board game.

FD43: Game tricks/hints - A disk full games cheats, hints, and backdoors for all of your favorite games. Hints for Shadow of the Beast, Dungeon Master, Space Ace, Leisure Suit Larry, Moria, Neuromancer, and over 300 more games.

SONY Blank Disks:

- 10 for \$8.90 (.89 cents ea)
- 25 for \$18.90 (.76 cents ea)
- 50 for \$34.90 (.70 cents ea)
- 100 for \$68.00 (.68 cents ea)

No shipping charge on USA blank disk orders, Canada & Mexico add \$.15 per disk, other foreign add \$.50 per disk.

FD44: Game - Mechfight is an out of this world role-playing adventure comparable to Hack and Moria. The setting, interplanetary colonies and space stations. Your quest is to explore the world, take time out to liberate bad guys of their most valuable possessions, engage in mortal combat against robots and alien life forms, pick up a new amiga 9000. Most of all, don't forget to stay alive...

FD45: Arcade - Three good shoot'em ups. Batman - save the city from the Joker, DriveWar - gangsters are moving in on your territory, try and stop them! Web - a spidery, bug affair of eat or be eaten.

FD47: Arcade Games - Contains DownHill - a demanding computer slalom ski game, MicroPac - a Workbench mini-pacman game, CrackOut - a break out clone, Jet - a superb aerial dogfight game, AmegaRace - an interesting asteroids type of game, and WindyDay - a unique arcade shoot'em up.

FD48: Puzzles - Contains CWP - a very well done full featured cross word puzzle game and generator, Concentration - like the card game, Hollywood trivia - a very large set of trivia questions on topics including StarTrek TNG, HitchHiker's Guide, Indiana Jones, StarWars, MASH.

FD49: Chaos Cheats - This disk contains an everything you wanted to know about cheat set for Chaos Strikes Back, including full maps, spells, object locations, super characters and more.

FD50: Submarine Game - Sealance, one and a half years in the making, this an outstanding submarine tactical game. Commercial quality, highly recommended.

FD52: Classics Games - PetersQuest a well done Mario brothers type of game, Jybmrc a two player missile command clone, and Vstank a tank commander game.

FD53: Great Arcade - On this disk is a wonderful implementation of the ever popular classic arcade game Defender. Also contains Air Race a WWII flying ace arcade game, and Psycoblast a new creation idea game.

FD54: FoodFight - Contains Galactic FoodFight, a wacky spaced out arcade game loaded with shooting ketchup, and hamburger eating monsters, and flying pizzas.

Workbench Disk

WB4: Telecommunication - several excellent PD communication programs designed to get you on line quickly and easily, Access (1.42) - ANSI term program Comm (1.34) - one of the best, Jrcomm and, Handshake a full featured VT.

WB5 - Fonts #1 - Several fonts (35) for the Amiga, also included are five PageStream fonts, and ShowFont - a font display program.

WB7: Clip Art - This disk is loaded with black and white clip art. Art includes, trees, watches, tools, US and State maps, and more.

WB8: File Management - Great disk. UtilMaster - From your workbench move, copy, delete, read, show, edit, arc, run any command, and much much more! Atree - similar to UtilMaster but hierarchal tree displayed.

WB9: Icons - Truly a multitude of various types and kinds. Also includes IconMeister, IconLab, and others great utilities to help generate icons.

WB10: Virus Killers - The latest and best VirusX(4.0), Kv(2.1), and ZeroVirusIII v1.10

WB11: Business - Clerk(4.0) A full featured business accounting PD program for the small company. Includes receivables, payables, end of month.

WB12: Disk Utilities - This great disk is loaded with wonderful utilities for everything including making disk labels, disk cataloging, disk recovery, file recovery, archiving and organizing, and all sorts of file manipulation. Also includes SID, the best file and directory display program for the Amiga, greatly reduces the need for a CLI, a real must have!

WB13: Printer Drivers and Generator - over 100 different drivers, and if these don't do it, with PrtDrvGen you can make your own.

WB15: Business - This disk contains a spreadsheet, a database, a project/time management program and financial analysis (stocks).

WB16: Business - Contains an inventory manager, a loan analysis program, a great calendar/scheduler, a rolodex program, and pennywise a good "Cash Book" accounting program for home or office.

WB18: Word/Text Processors - This disk contains the best editors. Includes, TextPlus (v2.2e) a full featured word processor, Dme(v1.35) a great programmers editor with strong macro features, TexED(v2.8) an enhanced Emacs type editor, and a spell checker.

WB20: General Interest - DiskSalv V1.42 a disk recovery program for all Amiga file systems, FixDisk V1.0 another file recovery program with features DiskSalv doesn't have, 3DLook gives a 3D appearance to your WorkBench, Clean V1.01 a program to defragment memory, Tracer - trace any part of an image.

WB22: Fonts #3 - Several more great fonts. These, like the other font disks work great with Dpaint and WYSIWYG word processors.

WB23: Graphics and Plotting - Plot a three dimensional mathematical function plotter. Can plot any user defined function, BezSurf2 - produce awesome pictures of objects one could turn on a lathe. Can also map IFF

image files onto any surface that it can draw. Now compatible with most 3D packages, and VScreen - makes a virtual screen anywhere, great for DTP.

WB24: Animation and Paint - On this disk, DA a complete commercial quality cell oriented animation package. Movie an "ANIM" player for standard animation. QuickFlix an IFF slide show and cell animation program. Also on this disk are two PD paint programs of good quality.

WB25: Educational - On this disk are two programs that can generate maps of differing types, World Data Base uses the CIA's data base to generate detailed maps of any entered user global coordinates. Also Paradox a great demonstration of Albert Einstein General Theory of Relativity.

WB26: Disk Utilities #2 - MrBackup, KwickBackup - two well done utilities to help with harddisk and floppy disk backups, FileMast - a binary file editor, Label printer - Disk label printer with very powerful features.

WB27: Nagel - 26 Patrick Nagel pictures of beautiful women.

WB29: Graphics and Sound - This disk has several different Mandelbrot type programs for generating stunning graphics. Includes, MandelMountains - a realistic terrain generator, Fragen - generated recursive fractals from user input, Mandelbrot and Tmandel - two fast mandelbrot generators, also Mostra - will display ALL IFF's Sound - a great IFF sound player, will play anything. Try this disk, you'll love it!

WB33: Circuit Board Design - several terrific routines for the electronic enthusiast, including PCBtool - a circuit board design tool, LogicLab - circuit logic tester, and Mcad (1.26) a well done new release of this PD CAD program, now comes with pre-drawn common circuit components for insertion into schematics.

WB35: 3d Graphics - Several neat 3d modeling/ray tracing programs 3dFonts, 3DFontMaker, Make3DShape.

WB36: Graphics - Create stunning graphical images. Includes, MPath - creates swirling galaxy images, Roses - produce wonderful variations of images that are symmetrically similar to a rose, and RayShade - a very good raytracing program, create your own beautiful 3d graphics.

WB37: Educational - Educational games and puzzles that cover math, geography, spelling, and books. Ages 6 - 15

WB38: Plotting and Graphics - Plotxy is the most powerful full featured plotting package. Used by many colleges and universities. A welcome addition to our library! Highly recommended. Plans - a incredibly well done Computer Aided Drafting program, very full featured. Tessellator - a program that helps generate fantastic looking, recursive M.C. Escher type pictures.

WB39: Music - Intuitracker is a German offer of an exquisitely well done program that allows you to play music on your Amiga with CD like controls.

WB40: Music - "CD on a disk", 90 minutes of modern music on this well presented collection. Req. 2 Drives/HD.

WB41: Music - MED an incredibly well done, full featured music editor. Create your own stunning music directly on your the Amiga. Similar to SoundTracker but better. Very easy to use program. Version 3.10.

WB43: Business - This disk contains AnalytiCalc - probably the most powerful spreadsheet program on the Amiga. A full featured spreadsheet with many features expected in a commercial package. 1.2 mb required!

WB46: Clip Art - HiRes clip art with the following motifs - embellishments (borders, doodads ...), people, and transportation.

WB48: Clip Art - HiRes clip art with the following motifs - Holidays, music, medical, and miscellaneous.

Order Toll-Free Now!! 1-800-879-0759

WB49abc:Animation Sampler - On this three disk sampler set (counts as two disks) are some of the best animations that have been created over the last three years. Several examples of "Movie" type animations some with spectacular raytraced reality. Also several European style or "Demo" animation with incredible graphics and sound. These truly show off the creative edge of an Amiga!

WB50: Animation - Seven of the best European style animations or "Demos", including - scientific 451, subway (a U.S. entrant, also our favorite), sunrise, thrsdemo, night, waves, and woow.

WB51: Animation - On this disk are two excellent movie style animations including ShipRotation - a futuristic space ship orbiting a surrealistic world (one of the best), and RV-3 - a DpaintIII anim of a rather wacked out airplane.

WB53:Graphics - The disk contains C-light - The easiest to use raytracing we have seen to date. This one started out life as a full featured commercial product similar to Sculpt3d. Raytracing programs can generate stunning, realistically shaded objects. Also, sMovie - a full featured video text titler similar to ProVideo, Broadcast Titler. Great video scrolling, wipes, special effects, & more...

WB54:Printing - This disk contains several routines to help with the chore of printing. Includes Gothic - Finally a Banner printer for the PD! PrintStudio - a well implemented all-purpose printer-utility with a very comfortable graphic interface and many advanced features, Lila - with ease, print ASCII files to a PostScript printer, and many more.

WB55:Application - XCopyIII - a full featured disk copier, make backups of copy protected disks. RoadRoute - find the quickest route from one city to another, highway description included, Diary - a diary program like "Doogie Houser M.D.", Cal - a calendar program, Magman - a database tailored to maintain records on articles and publications.

WB57:Animation - This disk has several "Demo" style animations, including, Blitter, Lolly, Sun5, vertigo, vortex, and xenomorph.

WB59:Business - contains a great, very full featured stock market technical analysis and tracking program, also an appointment calendar, and more.

WB61:Intermediate Utilities - Includes programs to help to drastically decrease flicker on an interlaced workbench screen-- Antiflick, an Atari-ST emulator, an eeprom programmer, turn your Amiga into an eight channel digital data analyzer or oscilloscope, and more.

WB62:MIDI Utilities - Several useful midi utilities including, programs to transfer to and from several music programs to midi, a MIDI sysex handler, a MIDI recorder with timebase, display MIDI info, file sequence player, and a few scores.

WB63:Disk Utilities #3 - Several highly recommended programs to aid in removing duplicate files from your hard drive, performing file backups, Binary editing, fast formatting, file recovery, disk track recovery, and forced DISK VALIDATION of corrupt disks.

WB66:Icons #2 - Lots of neat icons. Also, several wonderful programs that let you create your own icons, modify and manipulate icons and info structures.

WB68:Music Utilities - several good utilities for the Amiga music enthusiast. Includes, Noisetracker - a great music creation program, Sonix2MOD - converts sonix to .mod files which then can be used by noisetracker, soundtracker, and MED, SpeakerSim - a speaker design tool demo, Wondersound is an additive harmonic design tool.

WB69: Music - This disk has over 90

minutes of classical and modern electronic music for you Amiga.

WB70:Desk Top Pub - Atop - transfer Macintosh screen fonts, Mac or IBM format .AFM metric files, to Amiga screen fonts and PPage .metric files. With this program open the door to the libraries of Adobe and PostScript type, Calendar - month templates in PS form, Post - a full featured post script file display and print utility.

WB71:C64 Emulation - The A64 Package is a complete, very powerfull Commodore 64 emulator.

Spotlight

WB93: Workbench Extras #2

This is the disk that Commodore should have shipped with your Amiga; a "best of" collection that'll make your life a lot easier!

VirusX4.0: This program will sit on your Workbench screen and keep a vigilant eye on diskettes for viruses trying to infect your system.

Snap: Snap is the perfect tool for the lazy typist. Isn't it irritating when you look at the screen and think "That is *exactly* what I'm going to type!" >>Snap to the rescue!<< Or something appears on your screen that you have to use pencil and paper to write down >>Snap to the rescue!<<--just frame the text and another window appears with an exact copy of the contents of the frame!

FixDisk: FixDisk is a program to recover as much as possible from a defective disk. It can recover damaged (unreadable) tracks. It has functions to check file integrity, to check the directory structure and functions to undelete, copy or show (even defective) files and fix corrupted directory pointers. Everything can be selected with an intuition interface, so users can determine what action should be taken. Fixdisk won't process partitions >48MB.

Opt: This program will optimize floppy disks, hard disks, and ram disks (i.e. RAD). It is designed to provide for the safest optimization of your disks. It moves one disk block at a time to ensure this, so it will be slower than other optimizers which usually move whole tracks at a time--but is more reliable.

MachIII: MachIII is a utility program that provides hotkeys and many additional features for both CLI and Workbench users. Functions: Mouse Accelerator, Sun Mouse, Improved Window Cycling, Window Click to Front, Mouse Off, Mouse To Menu, Clock, Alarm, Online Meter, Screen Blanker, Full Macros with mouse-click recording.

GOMF: Get Outta My Face. This program will watch your system for Guru's and try to catch them and remove the offending program from memory without crashing your system.

PrintStudio: An all-purpose printer-utility with a very comfortable graphic surface. Some of the capabilities of PrintStudio: Hardcopies of IFF-Pictures (also HAM, ExtraHalfBrite & Overscan), hardcopies of any part of a picture, and of screens and windows. Printing of texts, blocks of text, Saving screens and windows to IFF-files. Changing the colors of screens and pictures, and easy adjustment of the printing parameters.

WB72: Directory Utilities - The programs on this disk are very powerful and come highly recommended. They are designed to make CLI and shell tasks virtually obsolete. These programs make the Amiga much easier to learn and use. From the Workbench environment, do file and directory manipulation include coping, deleting, moving, display text, edit text, view images, playing sounds, create directories, find files, group unarchiving, with many user definable functions and options, and much much more.

WB73: Keyboard Utilities - Dmouse contains an all in one, mouse accelerator, screen blanker, Shell invoker, Function key defines, and more, KeyMacro - set up macro

definition for any keystroke combination, KeyMapED - remaps the key board display to any user definable character. Also NTSC-Pal - converts any european (pal) or US (NTSC) to your standard, TPjr - a full featured video titler.

WB74: Amiga 3000 Utilities - MachIII - our favorite mouse, hotkey, screen blanker, autoCLI and autopoint all in one program, Iconize - a 16 color icon editor, NoClick - stop drive clicking, ReMapIcon - covert 1.3 icons to 2.0, and more.

WB75: Music - Over 100 instruments files (.inst) and sample sound files (.ss) for your music programs.

WB76: Applications - Contains Stichery - an often requested knitting design program, Lotto - a rather complete lottery tracking and prediction utility, SSS - this screen capture program can grab almost any screen including games, Today - a personal calendar, Tarot - fortune teller, and Grammar - grammar checker.

WB77: AV Demo - A well done Amiga Vision Demo program.

WB78: AV - On this disk are two Amiga Vision programs (bubbler, sync) written by Lou Wallace, chief technical editor of Amiga World. These programs are marvelous examples of how to's with AV.

WB79: Home & Business Accounting - Includes Ckbacct - the most complete checkbook accounting program going, LCDCalc - this well done calculator has a very large display and operates from the keyboard or mouse, Mileage master - monitor your automobile mileage with this mileage log, Grammar - a grammar checker, and Worldtime - find out what time it is in up to 50 global cities.

WB80:Graphics - Raytracing programs generate absolutely stunning realistic looking planes, rockets, buildings..., and surreal images often consisting of highly polished spheres and objects. 3-D Master is the most powerful EASY-TO-USE of it's kind that we have seen to date. This is easily better, and more full featured, than similar commercial programs costing in the hundreds of dollars.

WB81: Great Applications - DataEasy a very easy to use, database program. Don't let the easy of use fool you, this is a very full featured database program including full printer control for address labels and mail merge applications. Also includes, TypeTut a good typing tutor, RLC a full featured label printer, Banner, a multi-font banner maker, and Budget a home accounting in a program. Highly recommended.

WB82:Animations - Four full-length, great movie style animations. Including, Coyote, JugglerII, GhostPool, and Mechanix. 2 disk set, counts as 1! Coyote req. 1.5 MB.

WB83: Computer Art - this disk has some of the best Amiga generated computer art that we have collected in the past 5 years.

WB84: General Enjoyment - A fun filled disk that contains, I-Ching the ancient chinese art of fortune telling, FastLife an extremely fast life implementation, and several "Schwabie" type hacks that are loads of fun to watch. A very delightful disk, recommended.

WB85: Graphics - Contains several programs for manipulating 24 Bit color images (HAM-E) and a rather nice IFF Image processing package.

WB86: Amiga Vision - Contains the Centurion Press, An Amiga newspaper by Lou Wallace.

WB88abc: The Complete Bible - A three disk set, with the entire text New Testament and Torah (Old Testament). 1mb suggested.

DevDisks

DD45: AREXX PROGRAMS - This disk contains several useful AREXX programs and examples, PopCLI4 - The latest of a must have utility.

Order Toll-Free Now!! 1-800-879-0759

DD47: Pascal - This disk contains everything needed to program in Pascal. Includes, A68k (1.2) 68000 assembler, Blink linking software and PCQ (1.0) a modest Pascal sub-set compiler.

DD49: C Compiler - contains zc(1.01) fully K&R, zcc(1.0) front end, A68k(1.2) assembler, Blink linker.

DD50: ARExx #2 - a must have set of tutorials on ARExx and several useful examples and utilities for ARExx development.

DD51: Circuit Analysis - Aspic (2.3) A full featured program for electric circuit analysis.

DD52: Scientific - Includes Elements - an incredibly well done periodic table program with source, Scientific plotting - over 600k of Lattice C source routines that can be included in your own programs.

DD54: Compression - This disk is loaded with ALL of the best file compression programs and aids for the Amiga. Many of the programs can be used by the new user. Includes Arc(2.3), Lharc(1.0), Lhwarp(1.03), Pkax(1.0), PowerPacker(2.3a) a must have by all, Zip(1.0), Warp(2.04), and Zoo(2.0). Also IFFcrunch an excellent compression for IFF files.

DD55: ARP - On this disk you will find the complete ArpRel3.0 release including the full user docs, the full Developers guide, and Conman (1.4). ARP is the official AmigaDOS Resource Project (ARP) release 1.3. ARP makes many improvements to AmigaDOS and makes your system easier to use from the CLI.

DD57: Advanced Utilities - Msh - like Cross-dos, copies files to and from MS-DOS, Pal-NTSC - convert any pal program to NTSC and vice versa. Also several utilities that improve your startup-sequence, plus 25 more programs.

DD62: Basic and Xscheme - Cursor - an Amiga Basic compiler, sbasic and ftext - several wonderful routines to help in basic programmers, and Xscheme - an interpreted object oriented programming language.

DD63: Tests - Contains all of the classic speed tests and system checks we could find. Includes but not limited to, CPU Speed, Sieve, Salvage, STU - a full featured system diagnostic tool. Memory integrity test, Disk integrity test, and more.

DD64 Amiga Programmers Manual - The fully comprehensive Amiga programming manual with source code examples and easy to understand tutorials!

DD65 C Tutorials - Several well done tutorials on how to program the Amiga. Includes tutorials and working examples on Device drivers, IFF reads and writes, Sound implementation, Arcade game design and implementation, Double Buffering, and others. A must have for Amiga Programmers.

DD66 Programming ToolBox - Many programs to help in your development efforts (most for C some for Basic) Includes programs to generate requesters, an incredible spritemaker toolbox, to greatly aid compiling, convert DPaint brushes to C structures, a great library manager, and many more wonderful time savers!

DD69:Advanced Utilities - SerNet and ParNet - Connect two Amiga's and share resources, MemMonitor - Similar to WFrags but greatly improved, Selector - put menus on your Workbench screen, and more.

DD70:Game construction/parser tool - ADL (which stands for "Adventure Definition Language") is a programming language and run-time environment designed for the convenient implementation of

DD71:C compiler - This disk contains Dice, Matthew Dillon's full featured, powerful C

FD39A&B: Trek updated to work on NTSC

WB10: ZeroVirus now Version 3, Ver 1.10

WB61: FuncKey Fixed, Free Update

from the Editor

Dear Customer,

I thought I'd take a moment to touch on some of the differences between Public Domain and Commercial software.

Commercial software is written by professional programmers. Usually, this is the highest caliber of software available. Upgrades are usually issued and fees are charged for the updates which usually amount to around thirty, or so, percent of the original price of the software.

Shareware, Freeware and Public Domain software are programs that are generally written by "weekend" programmers. These people generally do not program for a living and write programs not because the market demands it, but usually because they had a personal need

for a particular program and then decided that perhaps someone else would also have need for the same program and then decides to release it into the public domain.

Without these types of programs and programmers, there would be large gaps in the software for the Amiga. Take for instance a program that would allow you to make simple "diary" entries. A program like this wouldn't be worth the effort of a commercial developer to create--since it would have to be priced extremely low to sell. This is an example of the niche that Public Domain and Shareware software fills; and this is the type of software that we distribute.

Shareware authors often have the program pop-up windows requesting a "shareware donation" be sent into the author (at which time you will usually receive a program back from the author that stops popping-up those donation windows). These shareware fees rarely exceed the \$20 mark and serve to keep the high-quality public domain software authors motivated to continue creating these indispensable programs.
